EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with M. Volin on 10/2/03.

The application has been amended as follows:

Claims 14, 26-33 have been canceled. Claims 31-33 are substantial duplicates of claims 2 and 10.

Claim 1 now reads:

1. A method of treating an implantable biological tissue, said method comprising stabilizing glycosaminoglycans on the tissue and cross-linking proteins on the tissue, wherein the glycosaminoglycan stabilizing comprises contacting the tissue with a water-soluble carbodiimide composition having a pH of 6.9 to 7.9, and wherein the cross-linking comprises contacting the tissue with glutaraldehyde.

The following is an examiner's statement of reasons for allowance:

The affidavit filed 7/17/03 is persuasive of unexpected results obtained when both a protein cross-linking by glutaraldehyde and a GAG stabilization by a water soluble carbodiimide @ pH 6.9-7.9 is performed on an implantable biological tissue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should
